Quality policy statement

Tex Argentina SRL is a company engaged in:

- * Providing Consulting and Design Services (conceptual, basic and detailed engineering) on Fire Protection Systems.
- * Distributing and marketing products applied to Fire Protection Systems.

For the development of its activities, Tex Argentina SRL has defined the following Quality Policy: Meeting and even exceeding the requirements and expectations of our customers, by marketing products and providing our services in accordance with National and International Codes and Standards as well as those of each organization.

- Meeting legal and regulatory requirements that apply to the development of our business.
- Implementing continuous improvement in our overall performance.
- Ensuring that data and information are sufficiently accurate, reliable and safe for decision-making.
- Forming a highly trained and specialized team both in providing services and in the domain of products sold. Providing the means to keep our professionals continually updated.
- Developing appropriate solutions to fulfill standard and customer specific requirements.
- Creating and maintaining a work environment where people can get involved in achieving the objectives of the organization.
- Establishing and maintaining mutually beneficial relationships with stakeholders.

This policy will be reviewed periodically for adequacy, and the members of the Management Office commit themselves to make it understood, implemented and maintained by all staff.
